EDUCATION

Dr. APJ Abdul Kalam Technical University (AKTU)

2022-2026

Bachelor of Technology

Greater Noida Institute of Technology

PROFESSIONAL EXPERIENCE

KriDaanC (E-Commerce Startup)

- **Tech Stack:** HTML5, CSS3, JavaScript, React.js
- Led end-to-end technical operations for the company website and digital platforms
- Coordinated with business and marketing teams for feature delivery
- Ensured website stability, performance optimization, and timely feature updates
- Provided technical support for product launches and marketing campaigns
- Website Maintenance, Performance Optimization, Traffic Monitoring

PROJECT

Automatic CAPTCHA Recognition System — Mini Project

- **Tech Stack:** HTML, CSS, JavaScript
- Built a real-time system to detect and solve text and image-based CAPTCHAs.
- Implemented image processing and automation logic to recognize characters and objects
- Designed the system to work with **minimal user interaction** (single checkbox click)

Agro Marketplace Platform — Smart India Hackathon

- **Tech Stack:** HTML, CSS, JavaScript, React.js, Tailwind CSS, MongoDB
- Built a digital marketplace connecting farmers directly with local buyers, reducing middlemen dependency.
- Designed and implemented a **responsive frontend** using modern web technologies
- Led the team as **Team Leader**, coordinating tasks and managing project delivery

Crop & Soil Identifier App — College Hackathon

- **Tech Stack:** UI/UX Design, Figma, HTML, CSS (Frontend Concepts)
- Designed and developed the **UI and frontend** for a mobile application to identify crop and soil types
- Focused on **intuitive user experience**, clean layouts, and modern design principles
- Collaborated with team members to align UI design with app functionality

ACHIEVEMENT

Hackathon

Smart India Hackathon (College Level)

- Worked on problem-solving projects addressing real-world use cases
- Agro Marketplace Platform
- Developed a digital marketplace enabling farmers to sell products directly to local buyers, reducing the dependency on middlemen

IPEC Hackathon

- Participated in the **IPEC Hackathon**, working in a team-based competitive development environment
- Responsible for **UI/Frontend design and development** of the project
- Applied modern design principles such as proper color hierarchy, layout structure, and accessibility
- Gained hands-on experience in **rapid prototyping, teamwork, and problem-solving under time constraints**

Developer Communities

- Active participant in **Google Developer Group (GDG)** technical meetups and workshops
- Member of **GeeksforGeeks (GFG)** community, attending coding events and tech talks

Certifications

Google Cloud Certification – Google Cloud Platform

- Gained hands-on knowledge of cloud fundamentals, compute services, storage, and deployment concepts
- Learned basics of cloud infrastructure, scalability, and security on Google Cloud

TECHNICAL SKILLS

- **Frontend:** React.js, HTML5, CSS3, JavaScript, Tailwind CSS
- **Backend:** MongoDB, MongoDB Atlas, Mongoose
- **Technologies:** Java SE, OOP
- **Tools:** Git, GitHub, Figma
- **IDE:** Visual Studio Code

DECLARATION

I hereby solemnly declare that information given above is true and complete to the best of my Knowledge. If I got a chance, try hard to prove myself for good work and result orientation.
